

Y2022

Goatskin Welder with Cut Resistant Liner

The Y2022 goatskin welder with cut resistant liner provides double the protection of a standard welding glove - offering not only cut but heat protection as well. Para-aramid yarns liner protects the hand against possible exposure to lacerations, or burns from sparks or hot parts - up to 350°F. The Y2022 offers extended wear with the added cut and heat protection necessary to weld parts in extreme environments.
