WASHING INSTRUCTIONS

Remove all large particles. Wash by hand or with a glove tumbler in warm water with acid and chlorine free detergent or soap. Water temperature should not exceed 125°F (52°C). Rinse in cold water. Hang dry. Do not tumble dry. Do not hit gloves against a hard object or surface. Heat and excessive force can damage the metal.

CAUTION

Gloves are cut resistant but are not cut or puncture-proof. Do not subject to high-speed, serrated blades or intentional slashings.
